

Inclusive Data Charter monitoring form

Annual Champion progress survey – 2022

Name of IDC Champion:	Data2X
Name of person responsible for completion of form:	Natalie Cleveland
Date that IDC action plan was published:	2018 https://www.data4sdgs.org/sites/default/files/2018-07/Data2X%20IDC%20Action%20Plan.pdf
Previous annual monitoring form:	2021 https://www.data4sdgs.org/sites/default/files/file_uploads/D2X_%20annual%20monitoring%20form%202021.pdf
Date of submission of this monitoring form:	2022

Section 1: Progress on inclusive data priorities

No.	Question	Guidance	Champion response
1.1	What progress have you made on your Inclusive data priorities/ IDC Action Plan priorities in the past year?	Include examples to accompany any highlights or achievements.	<p>Data2X has continued to champion our IDC Action Plan priorities throughout the year.</p> <p>At the national level, we have expanded our Gender Data Network (a network of gender data focal points from NSOs across LMICs) from 15 to 24 countries, working to incorporate French speaking members for the first time.</p> <p>We also built political commitment for gender data by partnering with the W20, the official gender equality partner network to the G20, to formally commit the Gender Data Network (GDN) as a technical assistance partner. In this role, the Gender Data Network</p>

			<p>will help guide the W20 to elevate gender data within its agenda, working to inform policy best practices that identify and respond to the needs of the most vulnerable, foster economic inclusion and strengthen resilience. (See https://data2x.org/gender-data-network-to-drive-gender-equality/)</p> <p>At the global level, Data2X analyzed funding flows, building on The State of Gender Data Financing, to support targeted advocacy to improve gender data resources. These analyses are the first pillar of our newly launched State of Gender Data initiative, an evolving Data2X publication and digital experience highlighting global progress and spurring action. (https://data2x.org/state-of-gender-data/)</p> <p>Also at the global level, we supported the development of a Gender Data Channel in Bern Network’s Clearinghouse for Financing Development Data. It aggregates data financing information, highlights funding projects, and allows data to be sliced along different variables (country, data instrument, etc. -- see https://smartdatafinance.org).</p> <p>In addition to assessing financing, another foundational Data2X contribution, Mapping Gender Data Gaps, surveyed the landscape of gender data gaps. Over the past year, Data2X developed companion work, Transforming the Data Landscape: Solutions to Close Gender Data Gaps (https://data2x.org/resource-center/transforming-the-data-landscape-solutions-to-close-gender-data-gaps/), on practical approaches to addressing gaps. We identified 142 solutions. Each was assessed by its thematic areas, relevant actors, barrier addressed, and stage of the data value chain.</p>
1.2	What areas of your Inclusive data priorities/ IDC Action Plan have you made the	Include any challenges or barriers faced.	This year marked a major leadership transition for Data2X, when our founding Executive Director stepped down after 10 years of operation. In light of this transition, Data2X paused deepening sector-specific workstreams in Big Data and climate resilience as

	least progress on, in the past year?		we awaited guidance from new leadership. As of October 2022, we are thrilled to welcome Executive Director Krista Jones Baptista (https://data2x.org/data2x-announces-krista-jones-baptista-as-new-executive-director/), and look forward to augmenting sector-specific work under her tenure.
1.3	Have there been any changes to your Inclusive data priorities/ IDC Action Plan objectives in the last year?	(Yes, No) <i>If yes, please give details of any changes</i>	No.
1.4	Has the progress on advancing your inclusive data priorities/ IDC Action Plan led to any changes (internally or externally) in one or more of the following areas?	<p><i>Checklist – tick all that apply:</i></p> <ul style="list-style-type: none"> ● Increased visibility and awareness on inclusive data ● Broader engagement and action being taken on inclusive data ● Increased capacity to collect, analyze and make use of inclusive data ● Strengthened coordination and collaboration with others to advance inclusive data objectives ● Strengthened knowledge exchange & learning ● Use of inclusive data to inform policy change or impacts for marginalised groups 	<ul style="list-style-type: none"> ● Increased visibility and awareness on inclusive data (externally) ● Broader engagement and action being taken on inclusive data (internally and externally) ● Increased capacity to collect, analyze and make use of inclusive data (externally) ● Strengthened coordination and collaboration with others to advance inclusive data objectives (externally) ● Strengthened knowledge exchange & learning (externally) ● Use of inclusive data to inform policy change or impacts for marginalised groups(externally)
Section 2: IDC network engagement			
No.	Question	Guidance	Champion response
2.1	In the last 12 months, have you engaged in any advocacy	(Yes, No) <i>If yes, please give details, including any examples</i>	No.

	around the IDC, like encouraging other organizations to join or speaking about the IDC at events?		
2.2	In the last 12 months, has being part of the IDC enabled you to collaborate with other Champions or partners to take forward your inclusive data priorities?	(Yes, No) <i>If yes, please give details, including any examples.</i>	No.
2.3	In the last 12 months, have you shared learning with other countries/organizations on the actions you are taking on inclusive data?	(Yes, No) <i>If yes, please give details, including examples.</i>	Yes. Given the alignment of Data2X's core mission with inclusivity, each of our publications this year have advanced knowledge sharing on inclusive data. In particular, our advocacy team has expanded and deepened work to build consensus via coalitions. Data2X has joined five new advocacy coalitions in the last year--both issue-specific ("WeProsper" focused on economic justice; Gender and Environment Data Alliance, focused on climate) and values-based (feminist, such as the Women's Major Group)--and has actively worked to shape messaging and priorities of new partners, building broader coalition for our inclusive data goals.
2.4	Which of the offerings below have you found to be the most valuable to you as a member of the IDC network in the last 12 months?	Checklist – tick all that apply: <ul style="list-style-type: none"> ● Communication opportunities e.g. blogs, data stories ● Participating in external events ● Participating in knowledge exchange & learning sessions e.g. Champion calls ● Resources and materials shared through the network ● Collaborating with other Champions on shared 	<ul style="list-style-type: none"> ● Participating in knowledge exchange & learning sessions e.g. Champion calls ● Resources and materials shared through the network <p>Comments:</p> <ul style="list-style-type: none"> ● The intersectionality learning sessions and resources this year were particularly engaging, interesting, and valuable to our team, as we're often asked about intersectional approaches by our feminist partners. We've been proud to share IDC resources and learn from network partners.

		<p>challenges or topics of interest</p> <ul style="list-style-type: none">• Being part of a network coming together on a common vision / goal• Receiving support from the IDC Secretariat• Other/ please specify
